

Due to the Covid-19 pandemic to protect your staff and ours as well as family members, **Mount Ararat Cemetery** has developed temporary procedures.

- We have closed our waiting room and ask that there is no congregating in the building. The restrooms will remain open at this time.
- Cemetery personnel should be at least ten feet away from any funeral party entering the grounds for an interment, inurnment or entombment, or unveiling. We ask that you hold the family back while our men bring the deceased from the hearse to the grave. Once our men leave the area, the family will be allowed to proceed to the grave.
- We ask that you please try to limit the number of people that attend services.
- The opening of caskets at the cemetery will not be permitted.
- Families will not be permitted to carry caskets to the graves themselves.
- Families will still be permitted to fill in graves at this time.

Please feel free to contact us with any questions that you may have.
